

## **Parents' representation at Donatus School**

Parents also go to school. This is even a constitutional obligation!

Article 10, paragraph 2 of the North Rhine-Westphalian constitution says:  
"The students' legal guardians participate in the organization of the school system through parents' representations".

Parents are thus entitled to participate in the shaping of the school and can contribute ideas or, if necessary, criticism. The representation of all parents at the Donatus School is called "Schulpflegschaft". It consists of all class representatives and their deputies and represents the interests of all parents at the school vis-à-vis the school management and other participatory bodies.

The Schulpflegschaft serves as a discussion forum to coordinate the different views and interests of the parents. Decisions to be made in the School Conference, the school's highest decision making body, are discussed and debated here beforehand.

The Schulpflegschaft can also submit their own motions to the School Conference which will be voted on there.
